OBJECTIVE

Passionate Full Stack Developer with strong skills in React.js, Tailwind CSS, Express.js. Adept at building scalable, responsive, and user-friendly web applications with clean and maintainable code. Seeking an opportunity to contribute technical expertise and grow within a collaborative development team.

EXPERIENCE

Infosys Springboard | AI Development Intern | Remote

February 2026 - April 2026

- Contributed 30–40% to developing a multi-model AI health diagnostics agent, focusing on risk assessment. Analyzed blood parameters to generate risk scores, improving diagnostic insights by 20%. Applied machine learning and data analysis to build a scalable healthcare solution.

RapidSkill | Front-End Development Intern | Remote

August 2025 - September 2025

- Built a responsive e-learning website using HTML, CSS, and JavaScript with a focus on usability and modern UI. Improved performance and scalability through SEO and frontend optimizations, boosting efficiency by 20–25%.

PROJECTS

AI Fitness Planner | Tech Stack: React.js, Express, NeonAuth, OpenAI, Render

[\(Project Link\)](#)

- Developed a full-stack Gym Planner web app to generate personalized workout plans, leveraging OpenAI model for dynamic training plan generation. Implemented secure user authentication using Neon auth
- Designed functionality that adapts workout plans dynamically based on user input and preferences seamlessly.

Ecommerce Website | Tech Stack: React.js, Express, Render, Git, GitHub

[\(Project Link\)](#)

- Developed a full-featured e-commerce website with product browsing, cart management, and order placement functionality, using reusable and responsive UI components with efficient state management.
- Integrated backend using Express to manage data flow and handle server-side operations efficiently.

Movie Search Engine | Tech Stack: React.js, Tailwind CSS, AppWrite, GitHubPages

[\(Project Link\)](#)

- Developed a movie search engine that displays movie images, ratings, language, and release dates from search results, optimized with debouncing to minimize API calls.
- Used Appwrite to track user searches and dynamically update a trending movies section based on interactions.

SKILLS

Programming Languages

Python, JavaScript, HTML5, CSS3

Frameworks & Databases

React.js, Express.js, MySQL

Developer Tools

Git, GitHub, PyCharm, VS Code, Postman

Soft Skills

Communication, Creativity, Leadership, Problem Solving, Time Management

EDUCATION

B.Tech in AI & ML, D N R College of Engineering and Technology, Bhimavaram

2022 - 2026

CGPA: 8.27 /10

AP, India

Intermediate (MPC), Sri Chaitanya Junior College | Percentage: 90%

2020 - 2022

EXTRA-CURRICULAR ACTIVITIES

- Front-End Dev in SIH:** Participated in the Smart India Hackathon (College Level) by developing “Agrisphere” a farmer-focused web platform, contributing real-time weather updates, a yield optimization tool, and a well-structured homepage consolidating crop manuals and disease solution guides, improving overall information accessibility and usability by approximately 25%.
